## 1) UPDATED WHITEPAPER (v1.1 – English)

### Executive Summary

**Mohem Token (MOH)** is a BEP-20 token on **BNB Smart Chain** focused on low-fee payments for local businesses, accessible blockchain education for newcomers, and a **Play-to-Earn (P2E)** ecosystem. We emphasize **security, transparency, and incremental delivery**.

- **Network:** BNB Smart Chain (BEP-20)
- **Contract Address:** 0xA041a7FD24D59d6E1e5D3c80044264F7eD3D8121
- **Total Supply:** 1,000,000,000 MOH
- **DEX Listings:** PancakeSwap, ApeSwap (BNB pairs)
- **BscScan Status:** Contract submitted for verification/tagging (pending)

  Pricing note: Market price is determined by **supply & demand**. Any public sale price is a **target** for the initial sale and is not guaranteed in secondary markets.

---

### Problem & Solution

1) **Fees & Speed:** Micro-payments are costly on congested chains.
**Solution:** Use BNB Smart Chain for fast, low-fee settlement and common wallets.

2) **Practical Education:** Newcomers face scattered, non-practical resources.
**Solution:** A structured learning portal (EN/FA) with step-by-step content and completion certificates.

3) **Engagement:** Users and builders need incentives.
**Solution:** Lightweight P2E web/mobile games with MOH rewards + developer bounties.

---

### Architecture & Technology

- **Smart Contract:** BEP-20 with role-based controls and optional pause functionality.
- **Wallets:** MetaMask, Trust Wallet (BSC).
- **Security:** Multi-sig treasury, role restrictions, liquidity locks, vesting contracts for team/marketing.

**Audit Plan:** - **Phase 1 (fast):** A baseline audit by a reputable tier-2 firm (e.g., Hashex/Dessert/TechRate).
- **Phase 2 (formal):** Full audit by CertiK/SlowMist; publish the PDF and on-chain verification links on the website.

---

## Tokenomics

- **Total Supply:** 1,000,000,000 MOH
- **Public Allocation:** 50% = 500,000,000
- **Team:** 10% = 100,000,000
- **Vesting:** 12-month cliff, then linear over 18 months
- **Marketing & Listings:** 15% = 150,000,000
- **Vesting:** 6-month cliff, then linear over 12 months
- **Development (Dev/Grants):** 15% = 150,000,000
- **Vesting:** 3-month cliff, then linear over 12 months
- **Reserve/Treasury:** 10% = 100,000,000 (for LP/top-ups/grants via DAO)

**Liquidity:**
- PancakeSwap/ApeSwap liquidity pools to be **locked for at least 12 months**. After lock creation, publish tx hashes and locker links on the website.

**Burn Policy:**
- Programmed, event-based burns up to **10%** of total supply, **subject to DAO vote** and treasury conditions. All burns on-chain and verifiable.

---

## Utility

- **Micro-Payments:** Lightweight merchant API + QR invoicing.
- **Education Access:** Course discounts and NFT completion certificates.
- **P2E:** Game rewards and tournaments with anti-cheat basics.
- **Governance (DAO):** Voting on parameters, burns, grants.

---

## Roadmap

**Q3 2025**
- Finalize listing docs, launch Transparency Status page, set up & lock LPs, complete Audit Phase 1.

**Q4 2025**
- MVP for QR payments + Education Portal (Phase 1, 10 lessons).
- P2E web beta.
- Submit to secondary data aggregators (LiveCoinWatch, CoinPaprika, Nomics, CryptoRank).

**Q1 2026**
- Audit Phase 2 (formal), Payment App v1 (merchant plugin), Burn Event #1.
- NFT credentials for education.

**Q2–Q4 2026**
- DAO voting live, developer grants, mobile P2E.

**2027**
- Expansion with local PSP partners, cross-chain capabilities.

---

## Transparency & Reporting

- **Transparency Status Page** with contract links, LP lock proofs, audit reports, treasury wallets, and monthly reports.
- **Monthly Reports:** Progress, KPIs, and burn/LP snapshots.

---

## Team & Governance

- **Manager:** Ali Rezaei (LinkedIn)
- **Accountant:** Sara Hosseini
- **Game Developer:** Mohammad Khan
- **Blockchain Engineer:** Reza Ahmadi
- **KYC:** Team KYC to be completed; result and verification link published on the website.

---

# 2) WEBSITE COPY (English)

**Navigation:** Home · About · Tokenomics · How to Buy · Roadmap · Transparency · Whitepaper · Community · Contact

**Hero**
**Headline:** Fast, low-fee payments + Education & P2E with Mohem Token
**Buttons:** Buy on PancakeSwap · View Contract · Read Whitepaper

**About**
Three pillars: (1) low-fee micro-payments, (2) hands-on education, (3) P2E incentives for users/builders. Include a link to your MVP/Demo when live.

**Tokenomics**
Pie chart + table with allocations and vesting/lock rules (as in Tokenomics section). Publish LP lock links once created.

**How to Buy (4 steps)**
1. Add BNB Smart Chain in MetaMask/Trust Wallet.
2. Import MOH contract: `0xA041a7FD24D59d6E1e5D3c80044264F7eD3D8121`.
3. Swap BNB → MOH on PancakeSwap or ApeSwap.
4. If slippage occurs, start with 0.5% and adjust slightly.

**Roadmap**
Timeline 2025–2027 (from the whitepaper).

**Transparency**
Links to: contract on BscScan, LP lock proofs, audit reports (Phase 1 & 2), treasury wallets, monthly reports.

**Community**
Telegram · X (Twitter) · Reddit · LinkedIn · Instagram · Facebook.

**Footer**
Copyright, official emails, Terms/Privacy, risk warning.

---

# 3) SEO META (paste into <head>)

- Title: Mohem Token (MOH) — Low-Fee Payments, Education & P2E on BNB Smart Chain
- Description: Mohem Token (MOH) is a BEP-20 project focused on fast, low-fee payments, practical blockchain education, and a Play-to-Earn ecosystem — with security, transparency, and community at its core.
- OpenGraph/Twitter: title, description, logo (SVG/PNG 200×200), site name, contract address.

---

# 4) FAQ (for the website and listing forms)

**What is Mohem Token (MOH)?**
A BEP-20 token on BNB Smart Chain designed for low-cost payments, education, and P2E incentives.

**Is there an audit?**
Audit Phase 1 is planned with a reputable firm; Phase 2 with CertiK/SlowMist. Reports will be published on the website.

**Is liquidity locked?**
Yes. LPs on PancakeSwap/ApeSwap will be locked for at least 12 months. Proof links will be added to the Transparency page.

**How are team tokens vested?**
12-month cliff, then linear release over 18 months.

**How can merchants use MOH?**
A lightweight payment API and QR invoicing will be provided. Early pilot merchants can apply via the Contact page.

---

# 5) CMC / CG SUBMISSION TEXT (copy/paste)

**Short Description (≤250 chars):**
Mohem Token (MOH) is a BEP-20 project on BNB Smart Chain focused on low-fee payments, practical blockchain education, and a Play-to-Earn ecosystem — built with security, transparency, and community in mind.

**Long Description (~700–900 chars):**
Mohem Token (MOH) enables fast, low-fee micro-payments on BNB Smart Chain while delivering hands-on blockchain education and a Play-to-Earn (P2E) ecosystem. The project prioritizes security and transparency through multi-sig treasury, liquidity locks, vesting schedules for team/marketing, and a two-phase audit plan (a baseline audit followed by a formal certification). Utility includes merchant QR payments, course access with NFT credentials, P2E rewards, and DAO governance. Liquidity for PancakeSwap/ApeSwap will be locked for at least 12 months; proof links and reports will be published on the Transparency page. The roadmap covers MVPs for payments and education, P2E web beta, DAO voting, and developer grants through 2026–2027.

**Tags:** Payments · Education · Play-to-Earn · BNB Chain · Governance

**Contract:** `0xA041a7FD24D59d6E1e5D3c80044264F7eD3D8121`

**Official Links:** Website · Whitepaper (PDF) · GitHub · Telegram · X · Reddit · LinkedIn · Instagram · Facebook

---

# 6) BscScan VERIFICATION CHECKLIST

- Flattened source code (exact compiler version & optimization flags).
- Contract metadata: name, symbol, decimals, supply.
- Public ownership info (renounced or role details).
- Verified contract on BscScan with published read/write functions.
- Add socials & logo via BscScan token profile request.

---

# 7) SECONDARY DATA AGGREGATORS (submit after CMC/CG forms)

- LiveCoinWatch · CoinPaprika · Nomics · CryptoRank · CoinCodex · CoinCheckup · CoinLore

---

## 8) PRESS & COMMUNITY BOILERPLATE

**Press Boilerplate:**
Mohem Token (MOH) is a BEP-20 token on BNB Smart Chain enabling low-fee micro-payments, practical education, and a Play-to-Earn ecosystem. With an emphasis on audits, liquidity locks, and transparent reporting, Mohem aims to onboard newcomers and support local businesses with simple crypto tools.

**30-Second Pitch (spoken):**
"Mohem is a BNB-chain token designed for fast, low-fee payments, with an education portal and P2E rewards to get newcomers engaged. We lock liquidity, vest team tokens, and publish monthly transparency reports. Our goal is simple: make crypto payments and learning usable for everyday people."

**Email Template (exchanges/partners):**
Subject: Mohem Token (MOH) Listing Inquiry
Body: Hello [Name],\nWe're Mohem Token (MOH), a BEP-20 on BNB Chain focused on payments, education, and P2E. Contract: 0xA041...D8121. We have LP locks and a two-phase audit plan. Whitepaper and docs are on our site. Could we discuss listing/submission requirements?\nBest regards,\nMohem Team — info@trustwdu.com

## 9) BRAND ASSETS REQUIREMENTS

- • Logo: SVG/PNG 200×200 (transparent).
- • Token icon in 64×64 and 128×128.
- • Color palette and typography for consistent visuals.
- • Social headers (Twitter/Telegram/Reddit) 1500×500.

## 10) GITHUB README (drop-in)

**Mohem Token (MOH)** — BEP-20 on BNB Smart Chain for low-fee payments, education, and P2E.
- Contract: `0xA041a7FD24D59d6E1e5D3c80044264F7eD3D8121`
- Docs: Whitepaper v1.1 (EN), Transparency page, monthly reports.
- Security: multi-sig treasury, LP locks (12m), vesting contracts, two-phase audits.
- Roadmap: Payments MVP, Education Portal, P2E beta, DAO, grants.

Website · Whitepaper (PDF) · GitHub · BscScan · PancakeSwap · ApeSwap · Telegram · X · Reddit · LinkedIn · Instagram · Facebook

## 11) "HOW TO BUY" WIDGET COPY

1) Connect wallet (MetaMask/Trust Wallet).
2) Select BNB Chain.

3) Import MOH: `0xA041a7FD24D59d6E1e5D3c80044264F7eD3D8121` .
4) Swap BNB → MOH on PancakeSwap/ApeSwap.
5) Start with low slippage (0.5%) and adjust if needed.

---

## 12) TRANSPARENCY PAGE STRUCTURE (for your site)

- Contract & token profile links (BscScan).
- LP lock proofs with tx hashes.
- Audit reports (Phase 1 PDF, Phase 2 PDF).
- Treasury wallets + monthly CSV snapshots.
- Burn events: on-chain tx links.

---

## 13) NEXT ACTIONS (do these now)

1) Generate and upload the English PDF whitepaper v1.1.
2) Add the Website copy above to trustwdu.com (English default).
3) Create a Transparency page and publish proofs (as available).
4) Start Audit Phase 1 with a tier-2 auditor and add the booking link on the site.
5) Post daily on X and run weekly AMA on Telegram; cross-post to Reddit.
