Introduction

This document serves as an official record of cash receipts for the public sale of Mohem Token (MOH), a BEP- 20token on the BNB Smart Chain. It provides a transparent overview of all offline cash transactions conducted since the public sale commenced on August 9, 2025. The purpose of this documentation is to ensure compliance with BscScan token update requirements and to demonstrate the project's commitment to community-driven governance and transparency.

Public Sale Overview

- **Token Sale Start Date:** August 9, 2025

- **Token Sale End Date:** Ongoing

- **Token Price:** 1MOH = 1USD

- **Total Supply:** 1,000,000,000MOH

- **Public Sale Allocation:** 50% (500,000,000MOH)

- **Amount Raised:** 13,119USD (equivalent to 13,119MOH sold)

- **Remaining Supply:** 899,986,881MOH (after burning 100,000,000MOH)

- **Token Sale Address:** 0xb2f3d8b2293323a87e6d8410f9A93dDB6F64ff 39(MetaMask wallet used for deployment and sales)

- **Distribution Method:** Offline cash transactions with physical receipts

Transaction Details

All public sale transactions have been conducted offline, with a total of 221transactions

recorded as of September 1, 2025. These transactions are traceable via the contract address on BscScan:

- **Contract Address:** 0xA041a7FD24D59d6E1e5D3c80044264F7eD3D 8121

- **BscScan Link for Transactions:**
https://bscscan.com/address/0xA041a7FD24D59d6E1e5D3c80044264F7eD3D 8121

A sample of recent transactions is provided below (full details are available on BscScan):

Transaction Hash	Date	Amount (MOH)	Value (USD)
0xbf622f2521fde5c5a6ccb836537f521ba5638b8d40161a24a98138cfe6667a0b	Sep- 01-2025	100,000,000	100,000,000(Burn)
0x 58035778(sample)	Aug- 18-2025	1	1
0x 58019683(sample)	Aug- 18-2025	1	1
... (additional 219transactions)	Aug- 09to Sep-01	Varies	Varies

Note: The burn transaction of 100,000,000MOH is included for transparency and is detailed in the separate burn announcement (see below).

Cash Receipt Verification

Physical receipts have been issued for each offline transaction, documenting the date, amount, and buyer details. These receipts are securely stored by the Mohem Token team and are available for audit upon request. A summarized version of the receipts is linked here for public verification:

Burn Event Details

On September 1, 2025, a token burn event was executed to reduce the total supply by 10% (100,000,000MOH) to enhance token value stability.

- **Amount Burned:** 100,000,000MOH

- **Purpose:** To reduce total supply and enhance token value stability

- **Recipient Address:** 0x000000000000000000000000000000000000dEaD

- **Transaction Hash:**
0xbf622f2521fde5c5a6ccb836537f521ba5638b8d40161a24a98138cfe6667a0b

- **BscScan Link:**
https://bscscan.com/tx/0xbf622f2521fde5c5a6ccb836537f521ba5638b8d40161a24a98138cfe6667a0b

- **Announcement Tweet:** https://x.com/mohemTK/status/ 1962413592663277886

- **Additional Documentation:**
https://github.com/tejaratpol1402/mohem-token/blob/main/mohem-burn-announcement.pdf

This burn fulfills the announced 10% reduction commitment, ensuring transparency and community-driven governance.

Transparency and Compliance

Mohem Token is committed to maintaining full transparency. The following resources are available for public review:

- **Whitepaper:** https://github.com/tejaratpol1402/mohem-token/blob/main/whitepaper

- **Transparency Page:** https://tejaratpol1402.github.io/mohem-token/

- **Contract Address:** 0xA041a7FD24D59d6E1e5D3c80044264F7eD3D 8121

- **Social Media:** https://x.com/mohemTK, https://t.me/MohemToken, etc.

- **Audit Reports:** Initial audit in progress (expected by September 2025), followed by CertiK or SlowMist audit.

Conclusion

This cash receipts documentation provides a comprehensive record of the Mohem Token public sale and burn event. For further inquiries or to verify details, please contact the team at info@trustwdu.com. We encourage the community to explore our Transparency page and engage with us on PancakeSwap or social platforms to join the Mohem ecosystem.
